

## - Aircraft Interiors 2017 -

### DAHER strengthens its position as a standard bearer for cabin products & services

*Hall B6, Stand 6C 60B – French Pavilion*

Paris, March XX, 2017 – DAHER will present its comprehensive range of cabin products & services at the Aircraft Interiors trade show in Hamburg from April 4 to 6. As an established name in cabin interiors with over 30 years' experience, DAHER aims to set the standard in services provided to aircraft manufacturers, airlines and maintenance centers through the 11 countries in which it has a direct presence.

DAHER draws on **three key assets** in implementing a **strategy based on a convergence between industry and services: operational excellence, innovative products & services, and the TBM range of single-engine aircraft.**

DAHER's **expertise** spans the entire customer supply chain, including:

- ✓ **Flow control and assembly line feeds**
- ✓ **Cabin products & services (OEM and retrofits)**
- ✓ **Development, production and installation of systems (including environmental control systems, insulation, cargo nets and floor coverings)**
- ✓ **Maintenance and support.**

As an established aircraft manufacturer, **DAHER has all the certification needed to offer services that meet the highest technical standards:** design (Part 21J), production (Part 21G), maintenance (Part 145 and FAR 145).

*“Cabin products & services is a strategic business for DAHER. This was reflected in the acquisition of the ‘Floor Covering - Interior Layouts’ business from the LISI Group in 2016, which put us in a position to meet the full range of customer needs. We believe our industry growth, our operational excellence, our innovative products & services, and the quality of our everyday support are real assets that will strengthen this area of our business. They also give us a significant growth driver.”*

**Nicolas Orance, Senior Vice President, Aerospace & Defense Business Unit.**

### **About DAHER – [www.daher.com](http://www.daher.com)**

DAHER is an equipment supplier developing Integrated Industrial Systems for aerospace and for advanced technologies.

By combining its know-how in industrial manufacturing, in product and process engineering, logistics and transport, and in industrial services, DAHER designs and develops value-added solutions for its industrial partners, who derive the benefit from this convergence of industry and services. DAHER has established itself as a leader in 5 fields of activity: aircraft manufacturer, aerostructures and systems, integrated logistics, nuclear services, and valves.

DAHER generates a turnover in excess of one billion euros, with an order book which corresponds to more than 3.5 years of turnover. Driven by bold innovation ever since it was founded in 1863, DAHER has established itself today as one of the major players of Industry 4.0 and the Factory of the Future.
